Sustainable Suggestions

The Headland is EarthCheck accredited as part of an effort to make us more sustainable

We have some sustainable suggestions that you might want to consider for your big day.

EARTHCHECK
BRONZE BENCHMARK
2024

- Biodegradable confetti only to help protect our coastal environment and wildlife. Dried flower petals make a beautiful, natural option.
- Balloons often end up in landfill or the sea, where they pose a serious risk to birds and marine life. Consider alternative décor options like ribbons, paper lanterns or floral installations.
- Choose seasonal, locally-grown flowers to reduce carbon footprint and support British and Cornish growers. Florists like Petalon offer beautiful, sustainable arrangements that align with our sustainability journey.
- If providing your guests with wedding favours, why not choose eco-conscious options such as wildflower seeds, locally sourced honey or handmade soaps.
- We offer on-site electric vehicle charging points to support greener travel. Guests with EVs are welcome to use these facilities during their stay.
